This Guide has three simple steps.

1. Most of us budget our financial commitments on a monthly basis and the guide is organized accordingly, but you may calculate on any time frame that works for you. For convenience, the guide shows monthly and corresponding annual income levels. Determine your monthly income or resource level. \$ _____
2. ADD to your income level any unusual or periodic income, such as inheritances, business income, anticipated investment income, etc.
SUBTRACT any unusual expenses, such as large medical expenses, care of a parent, or a large financial expense, etc.
Result: \$ _____ **This is your Adjusted Monthly Income.**
3. From the Adjusted Monthly Income column, move to the right to find a suggested giving level that you are ready to support, between 2% and 10%, depending on adjusted income and level of commitment. Interpolate between guide levels if needed.

(Of course this is solely suggested donations. Every person's circumstances are unique.)
